iOCBC a first

OCBC Bank has made its mark as the first financial institution here to offer banking and securities trading services on the Apple iPad from today.

The application software which can be downloaded from Apple App Store will let its customers and investors perform retail banking and securities trading transactions anytime, anywhere, the bank said.

Through the OCBC Mobile Banking for iPad, bank customers can gain a graphical view of bank

account transactions, balances and track credit card transactions.

As for iOCBC TradeMobile for iPad, OCBC's Securities customers can view 20 of their favourite stocks or market indices at a glance, trade in 14 stock exchanges including the Singapore Exchange and check the latest status of their trade orders on real time.

To access banking or securities trading accounts via the iPads, OCBC said its existing internet banking and mobile banking customers and iOCBC TradeMobile customers can use their respective IDs and passwords from tomorrow.
